Subject: AE data template and memos
[WDD Memo on Aquifer Exemptions 7-24-14.pdf](#)
[AE Data Call Memo.pdf](#)
[AE data template.xlsx](#)

Hi Michele,

Shari Ring mentioned that she spoke with you last week about the CA aquifer exemptions.

Headquarters is interested in 2D geospatial information (aka polygons) to be consistent with the rest of the AE dataset. The geospatial data should be either a shapefile or a geodatabase, not a pdf map from which EPA must sketch polygons. We also want to collect the data laid out in the 2011 memo from Ann Codrington (attached) in addition to the geospatial data.

I attached some files that might be helpful for DOGGR:

- [redacted] a blank spreadsheet with column headings and a key that defines the column headings,
- [redacted] the 2011 memo on data elements EPA is collecting, and
- [redacted] the 2014 memo on EPA's AE review and approval process.

DOGGR likely already has the 2014 memo, but I wasn't sure so I included everything I thought would be helpful.

Please let me know if I can help with anything else (data-related, that is)!

Thanks, Jill
